

Thermally separated ceiling connector

Precast reinforced concrete balcony, cantilevered

Exterior wall with thermal insulation composite system

Detailed view above door | under window with blinds

DCIK 01-04-TFJ | M 1 : 10

Component, example	
①	Thermal insulation composite system
②	Blinds, thermally insulated box
③	Insulation
④	Precast reinforced concrete, waterproof concrete
⑤	Schöck Isokorb® XT type K
⑥	Floor covering, floating screed
⑦	Impact sound and thermal insulation
⑧	Reinforced concrete ceiling
⑨	Plastering profile, joint sealing tape

Component, example	
⑩	Window element, door element
⑪	Threshold, thermally insulated
⑫	Facade channel
⑬	Slab with support system
⑭	Railing
⑮	Reinforced concrete lintel
⑯	Interior plaster
⑰	Plastering profile or elastic connector

Note: This detailed view is a general, non-binding planning proposal which only provides a schematic overview of the construction work. The planner and processor are responsible for checking applicability and completeness for each construction project. Adjacent components are only shown schematically. All specifications and assumptions must be adapted or coordinated to local conditions. The respective technical specifications of the data sheets, processing guidelines, standards, and system approvals must be observed. Balconies, arcades, and canopies require their own statics.
